

PRESS RELEASE

2018 SEA-DOO ADVENTURE CROATIA - DUBROVNIK

Dubrovnik, Croatia; Saturday, 30. June 2018 – In Dubrovnik, together with the organizer [AC BETA SERVIS](#) (official dealer and servicer for Evinrude, Sea-Doo and Can-Am in Dubrovnik, Croatia), the official dealer for BRP products in Podgorica, Montenegro – [PROKOM](#) and more than 20 present owners from our region, we have been hanging out at the last this year's Sea-Doo Adventure.

This is an event intended for all owners of Sea-Doo water scooters who want to use their PWC a little differently - for "adventurous" journeys, hang out with a larger group of people and discover new locations together and simply enjoy the good things in life.

We gathered in Mlini at the Sheraton Hotel in Dubrovnik at 9.00 AM and slowly set up all the units to the sea, acquainted all participants with the rules of navigation and laid out the path we will make, presented the symbolic gifts - Ski&Sea #EpicAdventure T-shirts and this year's special gift - CYCLOPSGEAR CGX2 cameras, with which all participants could record the whole event and then share their pictures and video material with us under the label #EpicAdventure.

Among the water scooters, at the event we had also a boat - 2018 Zodiac N-ZO 680 RS with an Evinrude G2 250 HP outboard engine, intended for journalists, photographers, cameramen and for the storage of everything needed for such a long journey such as extra fuel, lifejackets, water, equipment for repairing water scooters, etc.

To participate in the event, the previous ONLINE application was urgently required, which took place almost a month before the event itself. 25 people and 11 Sea-Doo water scooters from all over the region, Slovenia, Serbia, Croatia, Bosnia and Herzegovina and Montenegro, were registered. Journalists from the media house Auto Shop Group from Montenegro were also with us.

We sailed along the coast of Dubrovnik all the way to Cavtat. We visited islands like Bobara, Mrkan, Supetar, Lokrum, Lopud, etc. We stopped at the Bowa restaurant, where we were served with great fresh seafood, made some great photographs, we swam ...

We made about 50 nautical miles, explored the Dubrovnik Riviera, tasted "Dalmatian" food, chatted with clients from all our region, took pictures from the walls of Dubrovnik and ... just enjoyed it!

"This is our second such event this year and our aim is to organize Sea-Doo Adventure through whole our region. Namely because the participants in the event were not just Croats, but also clients from other countries of our region like from Serbia, Slovenia, Bosnia and Herzegovina, Montenegro ... This proves that the idea of Sea-Doo Adventure was recognized and accepted by the clients. This year, we have organized the event in Slovenia and now in Croatia, and the goal is that this kind of event becomes traditional, that more and more people participate every year and that we organize it in all countries of our region," said Ksenija Povše, general director of Ski & Sea d.o.o. (general distributor and servicer of BRP products), who was also a sponsor of these events.

On this occasion, we sincerely thank the organizer [AC Beta Servise](#) (official dealer and service provider for Evinrude, Sea-Doo and Can-Am in Dubrovnik, Croatia) for excellent organization, effort and hospitality, the official dealer of BRP products in Montenegro - [Prokom d.o.o.](#) for the participation at the event, to the journalists of the media house Auto Shop Group from Montenegro and to all the participants of the event!

We share the passion of the Sea-Doo community and enjoying the good things in life!
